

Survey Results and Discussion

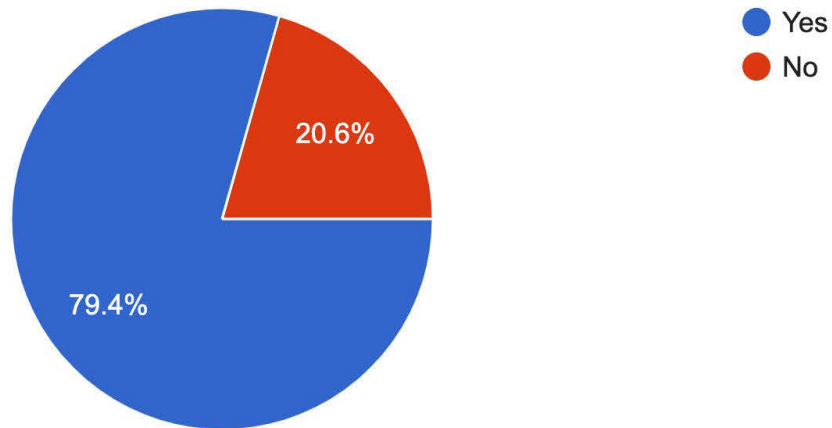

1. Saan ka kumukuha ng balita o impormasyon? Maaaring pumili ng higit sa isa. Where do you usually get your news/information? Check all that apply.

131 responses

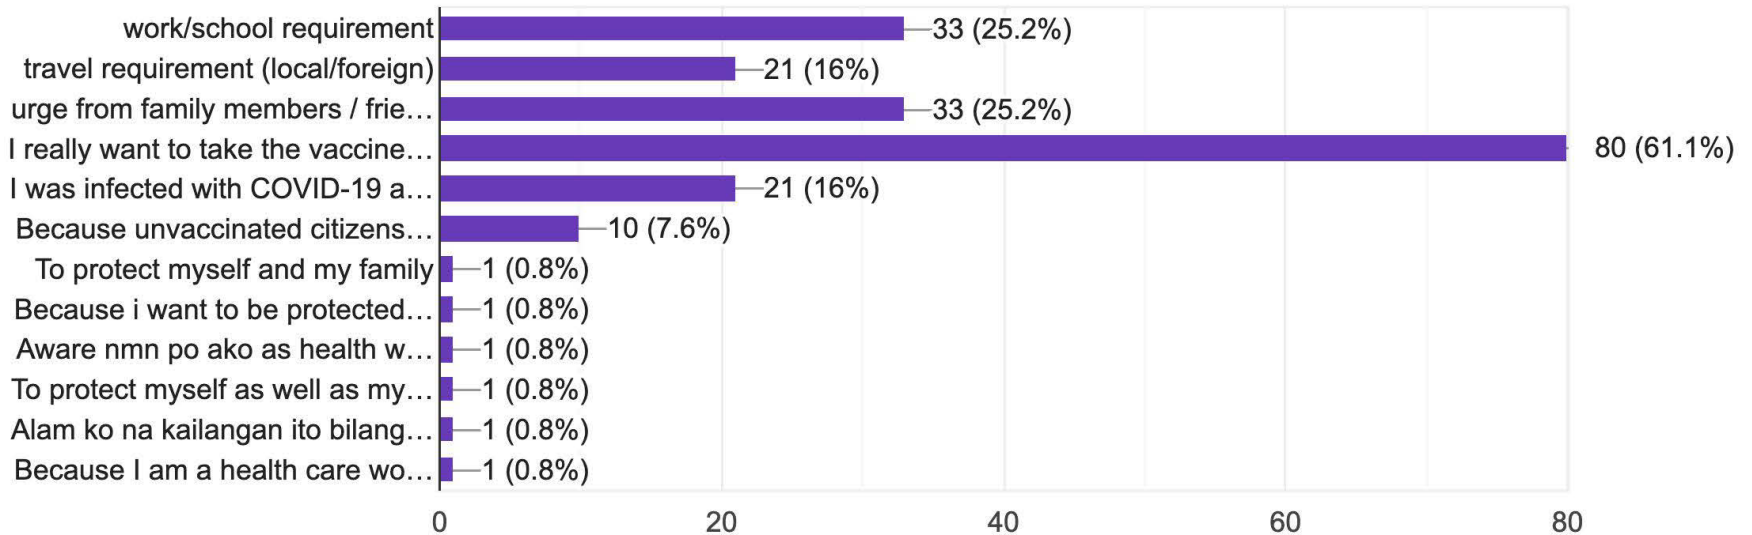

2. Bago ka pumunta para magpabakuna laban sa COVID-19, nagdalawang isip ka ba bago mo ito gawin? Before you came to the vaccination site, did you think twice or more before getting vaccinated?

131 responses

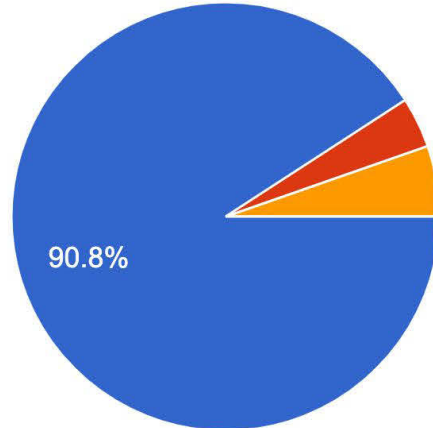

3. Anu-ano ang mga dahilan para magdesisyon kang magpa bakuna laban sa COVID-19? What made you finally decide to take the COVID-19 vaccine?

131 responses

4. Natagalan akong magpabakuna dahil nalaman ko sa social media/TV/radyo na ang bakuna ay hindi ligtas at epektibo. It took a while for me to g... TV/radio that vaccines were not safe and effective.

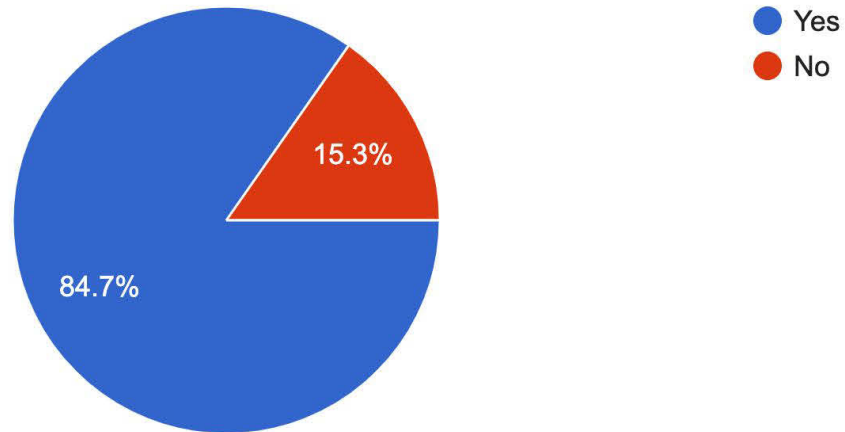

131 responses

- I believed at first but now I am convinced that vaccines are safe and effective
- I still believe they are not safe and effective but I do not have the choice since it is a requirement
- I do not believe in this statement. I have other reasons.

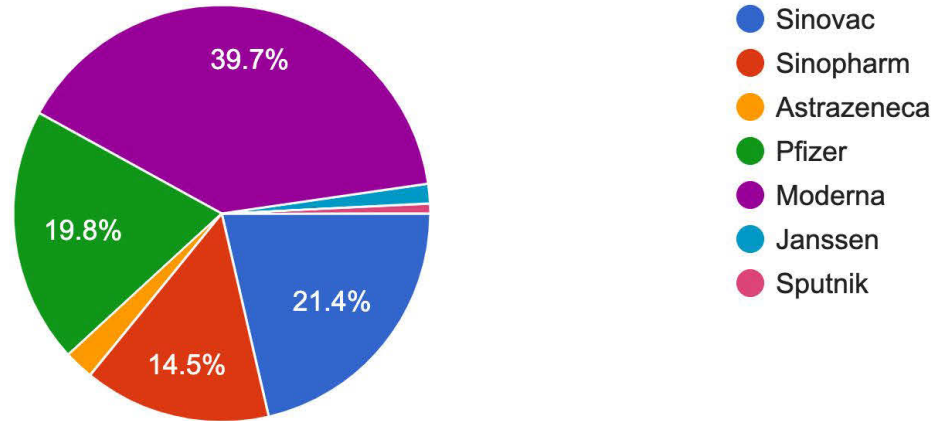

5. Magpapabakuna ako kahit ano pang brand ng vaccine ang iturok sa akin. I took the vaccine regardless of the vaccine brand.

131 responses

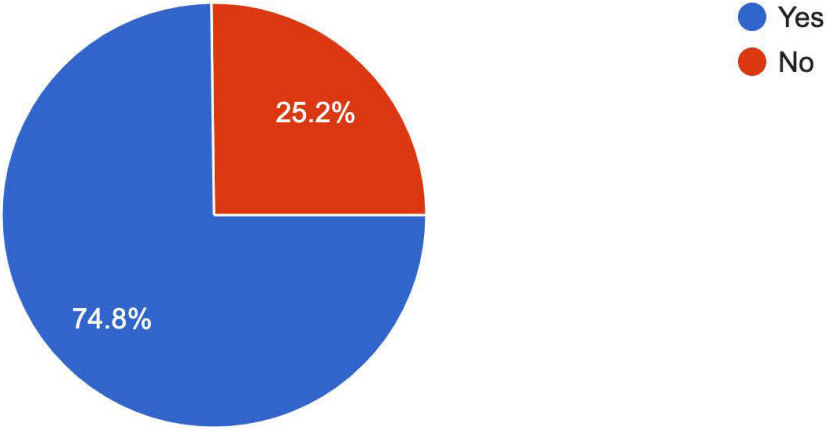

6. Anong brand ng bakuna ang mas gusto mo? Preferred vaccine brand.

131 responses

7. Naniniwala akong hindi na ako magkaka COVID-19 kapag ako ay nabakunahan na. I believe that once I am vaccinated, I won't be infected with COVID-19.

Strategy to Encourage Senior Citizens to Take Vaccination

Jasmin Maligaya-Bautista

1 Jul · 🌐

To all my beloved Nanays and Tatays in Magallanes... Dama ko po ang inyong agam agam at takot magbakuna laban sa Covid-19 pero ito din po ang daan sa proteksyon at kaligtasan ng lahat ng ating mga nakatatanda laban sa "severe" effects ng Virus na ito.

Kaya inaanyayahan ko pa din po ang lahat ng Nanay at Tatay natin na magbakuna sa ating Magallanes Rhu every Tuesdays, Wednesdays and Thursdays. Lahat po ng senior citizens na magpapabakuna ay bibigyan natin ng 2kls of Rice.

Maraming salamat Governor Jonvic Remulla Provincial Government sa pagbibigay sa bayan ng Magallanes ng Bigas.

Hangad ko ang kaligtasan ng lahat. Ang aming tungkulin na proteksyunan ang bawat mamamayan ay patuloy na gagampanan sa kabila ng nararamdaman nating pandemya.

Functions of Public Libraries

Republic Act No. 7743

AN ACT PROVIDING FOR THE ESTABLISHMENT OF CONGRESSIONAL, CITY AND MUNICIPAL LIBRARIES AND BARANGAY READING CENTERS THROUGHOUT THE PHILIPPINES, APPROPRIATING THE NECESSARY FUNDS THEREFOR AND FOR OTHER PURPOSES

Sec. 6. Functions of the Public Libraries and Barangay Reading Centers. — The public libraries and barangay reading centers shall have the following functions:

- (a) to make available to the members of the community reading materials of wide array including reading materials prescribed by the Department of Education Culture and Sports and national newspapers of general circulation and others;
- (b) to be used as a venue for audio-visual presentation in the community and other kinds of exhibitions and activities aimed at increasing the literacy rate by government agencies, non-governmental organizations or private entities in the dissemination of information of general interest; and
- (c) to offer such other related services in the furtherance of this Act.

Status of Public Libraries in the Philippines

The National Library of the Philippines (NLP) assists over **1,455 public libraries**, throughout the Philippines in terms of training, staff development and partial book allocations.

Majority of the public libraries in the country are found in the municipalities (50%), barangays (21%), cities (19%) and provinces (9%).

The actual total numbers of public libraries in the Philippines however, only make up 3% of the ideal as prescribed by the law.

Most of the existing public libraries are under the office of the Mayor (37%) and the Vice-Mayor (21%), followed by the barangay captains (16%), the Sanggunian (9%), the Vice Governor (6%), and the Governor (5%).

Public Libraries as Partners in Combating Infodemic: Practice Civic Engagement

“civic engagement means working to make a difference in the civic life of our communities and developing the combination of knowledge, skills, values and motivation to make that difference” (Public libraries as platforms for civic engagement, 2018).

“Libraries uphold and strengthen some of the most fundamental democratic ideals of our society” (Kranich, 2012)

- Opportunities for public libraries to break bubbles
- Libraries as content providers and be publishers themselves
- Provide evidence-based data and information
- Encourage and strengthen diversity
- Bring people together with mutual interest

SOURCE | DEPARTMENT OF HEALTH

SINOVAC CORONAVAC (Inactivated Virus)

COVID-19 VACCINES EXPLAINED

Granted Philippine FDA Emergency Use Authorization Approval on Feb 22, 2021

AGE GROUP COVERED
18 years old above

DOSES
2 doses / 28 days apart

EFFICACY

51% against symptomatic COVID-19

81.5% against symptomatic COVID-19, 14 days after 2nd dose

100% against severe COVID-19 and hospitalization

ADVERSE EVENTS REPORTED
Local lymphadenopathy at the injection site. Allergic reaction that may be caused by any component of the vaccine. Convulsion

PFIZER BIONTECH (mRNA)

COVID-19 VACCINES EXPLAINED

Granted Philippine FDA Emergency Use Authorization Approval on Jan 14, 2021

AGE GROUP COVERED
12 years old and above

DOSES
2 doses / 21 days apart

EFFICACY

95% against symptomatic COVID-19

100% against symptomatic COVID-19 in 16-year-old and above

ADVERSE EVENTS REPORTED
Local lymphadenopathy at the injection site. Allergic reaction that may be caused by any component of the vaccine. Convulsion

MODERNA (mRNA)

COVID-19 VACCINES EXPLAINED

Granted Philippine FDA Emergency Use Authorization Approval on Mar 9, 2021

AGE GROUP COVERED
18 years old above

DOSES
2 Doses, 28 days apart

EFFICACY

94.1% against symptomatic COVID-19

100% against severe COVID-19

ADVERSE EVENTS REPORTED
Local lymphadenopathy at the injection site. Allergic reaction that may be caused by any component of the vaccine. Convulsion

NOVAVAX (Protein Subunit)

COVID-19 VACCINES EXPLAINED

No FDA EUA Approval yet

AGE GROUP COVERED
18 years old above

DOSES
2 doses / 21 days apart

EFFICACY

90.7% at least 7 days after 2nd dose

100% protection against hospitalization and death

95.4% against non-alpha variants

ADVERSE EVENTS REPORTED
Local lymphadenopathy at the injection site. Allergic reaction that may be caused by any component of the vaccine. Convulsion
